About heygold SE

heygold SE combines tradition and modernity in an innovative way. By bundling the expertise of Deutsche Edelmetallhaus GmbH and the neo-precious metals trading company heygold.com (GTS AG), we tap valuable synergies from the classic and digital trading of gold and other precious metals.

Our vision is to modernize precious metal trading. Whether young or old, with a low or high budget, with industry knowledge or without, we believe: Everyone should have the ability to buy and sell gold and other precious metals simply and easily.

As a progressive omnichannel precious metals dealer, we enable customers to decide for themselves when, how and how much they want to invest in precious metals. We offer the right solution for every customer requirement, whether offline in the retail store or online via the web or in the super app.

The successive expansion of the portfolio as well as the range of services in the off- and online channels will open up additional target groups. The consistent digitization of our business processes and the associated scalability allow heygold SE to open up markets far beyond the borders of Germany.
